

Journal of Oceanography

Volume 48 (1992)

Contents

Number 1

Y. Toba: Presidential Address: Possible Future Trends in the Study of Global Climate System and the "Journal of Oceanography"	1-4
R. W. Stewart: Understanding Fluxes to and within the Ocean: a Key to Understanding Climate	5-12
T. Yanagi, M. Shimizu, T. Saino and T. Ishimaru: Tidal Pump at the Shelf Edge	13-21
Y. Nagaya and K. Nakamura: ^{239,240} Pu and ¹³⁷ Cs in the East China and the Yellow Seas	23-35
S. Mizuno and Z. Cheng: A Pair of Langmuir Cells in a Laboratory Tank (I) Wind-Only Experiment	37-57
M. Kubota and J. J. O'Brien: Seasonal Variation in the Upper Layer Thickness of the Tropical Pacific Ocean Model	59-76
N. Ebuchi, Y. Toba and H. Kawamura: Statistical Study on the Local Equilibrium between Wind and Wind Waves by Using Data from Ocean Data Buoy Stations	77-92
K. Kamimura, H. Fuse, O. Takimura, Y. Yamaoka, K. Ohwada and J. Hashimoto: Pressure-Induced Alteration in Fatty Acid Composition of Barotolerant Deep-Sea Bacterium	93-104
A. Shiimoto and S. Matsumura: Primary Productivity in a Cold Water Mass and the Neighborhood Area Occurring off Enshu-Nada in the Late Summer of 1989	105-115

Number 2

S. Kanari, C. Kobayashi and K. Takeuchi: Turbulent Structure in the Upper Layer of the Western Equatorial Pacific Ocean	117-127
T. Samukawa, M. Onitsuka, K. Ohta, M. Tominaga and H. Yoshiyama: Estimation of Spectral Refractive Index of Colloidal Sulfur at 20°C	129-138
N. Ebuchi, H. Kawamura and Y. Toba: Statistical Properties of Microwave Backscattering from Laboratory Wind-Wave Surfaces	139-154
K. Ichikawa and S. Imawaki: Fluctuation of the Sea Surface Dynamic Topography Southeast of Japan as Estimated from Seasat Altimetry Data	155-177
F. Sakaida and H. Kawamura: Estimation of Sea Surface Temperatures around Japan Using the Advanced Very High Resolution Radiometer (AVHRR)/NOAA-11	179-192
M. Nakata, S. Aoki and N. Suginoara: Effects of a Continental Slope along the Western Boundary on the Abyssal Circulation	193-219

K. Hanawa and T. Yasuda: New Detection Method for XBT Depth Error and Relationship between the Depth Error and Coefficients in the Depth-Time Equation	221-230
--	---------

Short Contribution

J. Yano and I. Yasuda: Note on the Isolated Vortices over the Topographic- β	231-237
--	---------

Number 3

I. Yuasa and H. Ueshima: A Tidal Front in Winter Influenced by River Discharge	239-255
A. Miyazono, T. Odate and Y. Maita: Seasonal Fluctuations of Cell Density of Cyanobacteria and Other Picophytoplankton in Iwanai Bay, Hokkaido, Japan	257-266
K. Yanagi, M. Yasuda and F. Fukui: Reexamination of the Fractionation of Total Dissolved Phosphorus in Seawater Using a Modified UV-Irradiation Procedure, and Its Application to Samples from Suruga Bay and Antarctic Ocean	267-281
K. Abe and Y. Watanabe: Determination of Silicate in Seawater by Inductively Coupled Plasma Atomic Emission Spectrometry	283-292
P. Thadathil and A. K. Gosh: Surface Layer Temperature Inversion in the Arabian Sea during Winter	293-304
J. Ishizaka, H. Fukushima, M. Kishino, T. Saino and M. Takahashi: Phytoplankton Pigment Distributions in Regional Upwelling around the Izu Peninsula Detected by Coastal Zone Color Scanner on May 1982	305-327
S. Minato: Two Layer Model of the Steady Ocean Response to Large-Scale Heating and Cooling	329-344

Short Contribution

F. Sakaida and H. Kawamura: Accuracies of NOAA/NESDIS Sea Surface Temperature Estimation Technique in the Oceans around Japan	345-351
---	---------

Number 4

T. Komatsu and H. Kawai: Measurements of Time-Averaged Intensity of Water Motion with Plaster Balls	353-365
R. Suzuki and T. Ishimaru: Characteristics of Photosynthetic Pigment Composition of <i>Gymnodinium mikimotoi</i> MIYAKE et KOMINAMI ex ODA	367-375
H. Iizumi: Acetylene Reducing Activity at a Tropical Seagrass Bed in Papua New Guinea	377-384
T. Toda, K. Nishi and H. Kunishi: Seasonal and Mesoscale Variation in the Surface Temperature and Salinity at the Coastal and Shelf Region off Shikoku, Japan	385-403
F. M. Bingham, T. Suga and K. Hanawa: Comparison of Upper Ocean Thermal Conditions in the Western North Pacific between Two Pentads: 1938-42 and	

1978-82 405-425

C.-L. Wei and C.-C. Hung: Spatial Variation of ²³⁴Th Scavenging in the Surface Water of the Bashi Channel and the Luzon Strait 427-437

N. Iida, Y. Toba and M. Chaen: A New Expression for the Production Rate of Sea Water Droplets on the Sea Surface 439-460

Y. Tanaka: Japanese Anchovy Egg Accumulation at the Sea Surface or Pycnocline—Observations and Model 461-472
